Fame Frame

Materials you will need:

Cardboard (an empty cereal box is ideal)

Tape

Scissors

Pens, pencils or paint

What is a Fame Frame?

A fame frame looks a bit like a tv screen, except the middle will be empty so you can hold it over your face and pretend you are the star of a tv show, or a newsreader.

Fame Frame

How to make a Fame Frame:

1) Cut out the front and back panels of your cereal box.

2) Next, cut out the centre part of each panel, making sure you leave a nice thick frame on three sides of each panel. You should do this with the printed image of the cereal box facing you. One panel will need a frame on the top, the bottom and the left hand side. The other panel will need a frame on the top, the bottom and the right hand side.

Fame Frame

3) With the printed image of the cereal box still facing you, tape the two halves of the frame together. When you turn it over you will have a blank frame. You can decorate your frame any way you like.

4) You can use other parts of the cereal box to create additional parts to the frame, such as a 'Breaking News' image in the corner of your screen.

5) Tape any additional parts onto the back of your TV frame so that when you turn it around the tape will be hidden.
