

Rainbow Watercolour

Firstsite Create at Home

Materials you will need:

Felt Pens

A sheet of kitchen roll

small cup or bowl of water

scissors

How to make a Rainbow:

- 1) Cut your kitchen roll in half lengthways so you have two long strips.
- 2) Along the bottom of the kitchen towel, using a felt pen, colour in a small rectangle in a colour of your choice. This rectangle needs to be about 1cm along and 2cm high.
- 3) Next to this, colour in another rectangle with a different colour felt pen. Keep adding coloured rectangles until the bottom of the kitchen towel is covered.
- 4) Now place the coloured edge of your kitchen roll into the water and watch what happens!
- 5) When the colour has been absorbed to the top of your kitchen roll, leave the painting to dry.
