### Materials you will need:

Paper

Pencil

Felt pens or coloured pencils

Eraser

# Street Style

### What is Street Art?

Street Art usually appears on the side of buildings and on walls so it can be viewed publicly. It can range from a detailed image to a phrase, or just a name. When making your own version of Street Art at home, make sure you use a piece of paper or card, rather than the wall. When you have completed your design, put it in your window as a public artwork for everyone to see.

### How to produce your own Street Style

1. Decide what you want your message to be. It could be your name, or a positive message to your family and friends.
2. Draw an outline in any style you like using a pencil. There are lots of examples of street style lettering on the internet, or you can create your own.
3. Choose two colours that work well together, such as pink and purple, or orange and red. It will work best if one colour is light and the other is darker.
4. Colour in your letters with the light colour.
5. Use the darker colour on the bottom half of your letters.
6. Your letters do not need to be the same colour as each other, use as many combinations as you like.
7. Use a black felt tip pen to give each letter a bold outline.
8. You can add images to your Street Style too.

**NOW IT'S YOUR TURN!**
