

Materials you will need:

A speaker to play music from, this could be a radio, a phone, an ipod or a CD player

Paper

Pencil

Coloured pencils or felt pens (optional)

What is a dancing drawing?

Turn on your speaker and draw to the beat and rhythm of the music!

How does the music effect your drawing?

You could use different coloured pencils or pens to illustrate different rhythms and beats that you hear.

What shapes does the music remind you of?

You could use dots to illustrate the beat.

Do you draw quickly to a fast beat or rhythm?

Get up and dance to the music with your dancing drawings!

Why not ask someone in your household to try and play your dancing drawings? They could use an instrument or tap on a solid object. Check with an adult first which object you can use as an instrument.
